טיפים ליצירת לחן:

1. האם הרובוט מצליח לעבוד לשני הכיוונים? מה ההבדל?
2. נסו לשמוע את ההבדל בין שתי פקודות של חצי סיבוב

לפקודה אחת של סיבוב שלם

3. נסו למתוח בעדינות את הגומיה כלפי מעלה ולשמוע מה קורה לצליל.

4. נסו להוסיף למנוע זרועות נוספות במיקומים וזוויות שונים כדי לשנות את הלחן
